

Escalator dos

Face forward and hold the handrail.

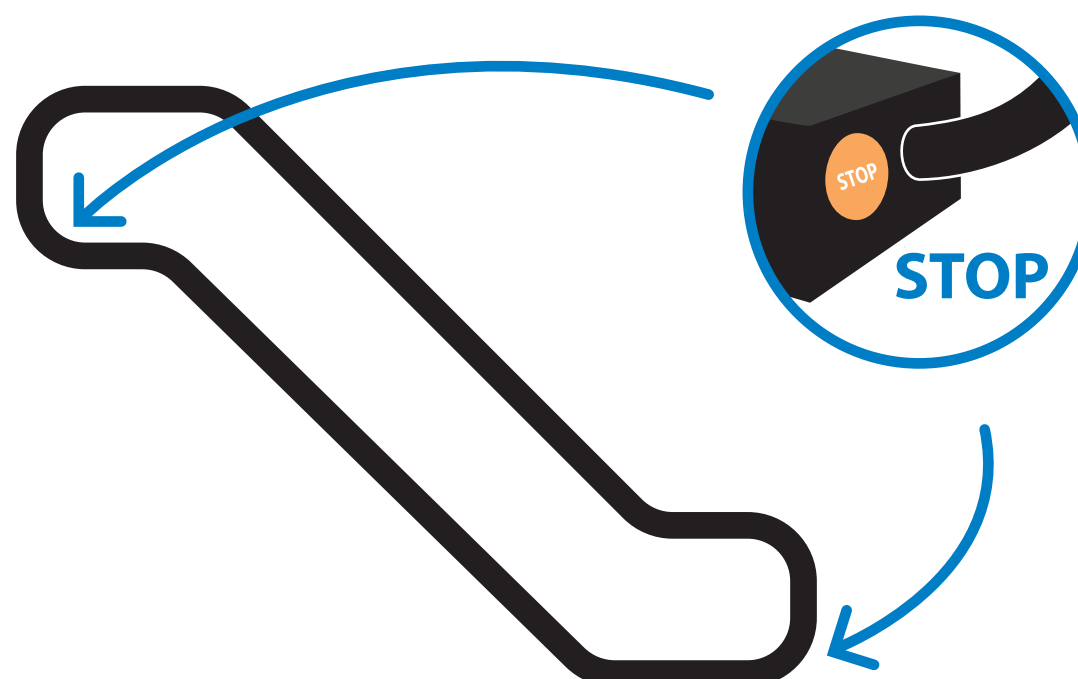

Keep feet firmly on the step and away from the escalator's sides.

At the end of the ride, step off properly from the escalator and make room for the next passengers to step off.

Children should always be accompanied by an adult and their hand should be held during the ride.

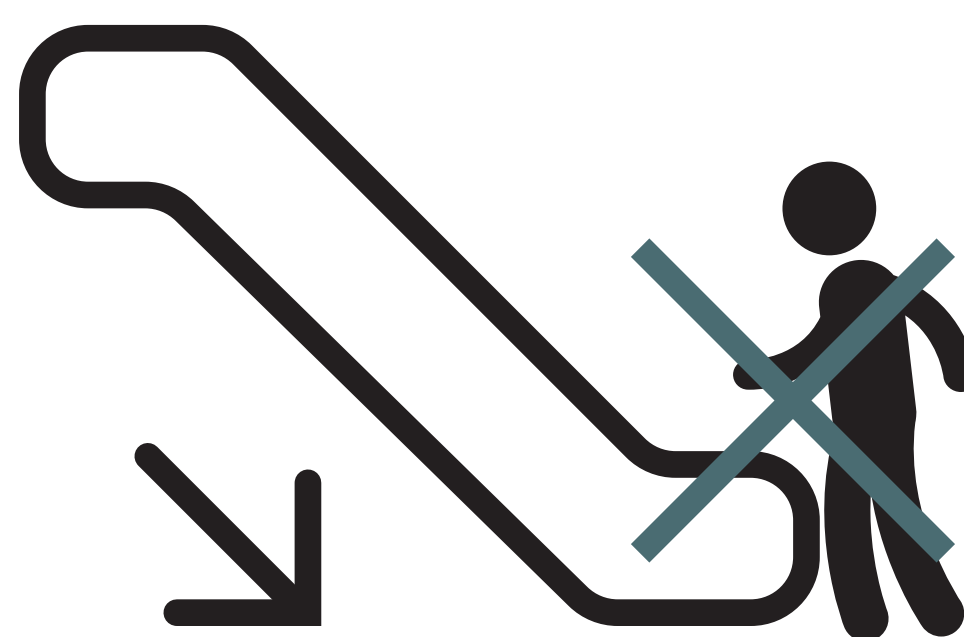

The emergency stop button should be used in case of an incident or escalator malfunction.

Escalator don'ts

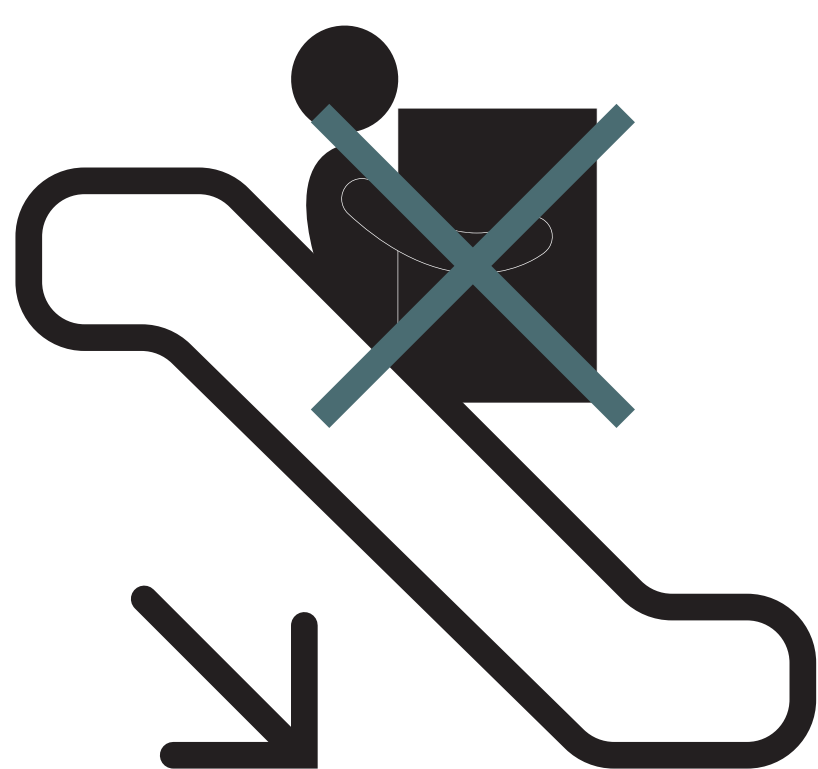

Do not sit on the escalator or the handrail, or lean over the railing.

Do not enter or exit the escalator in the wrong direction.

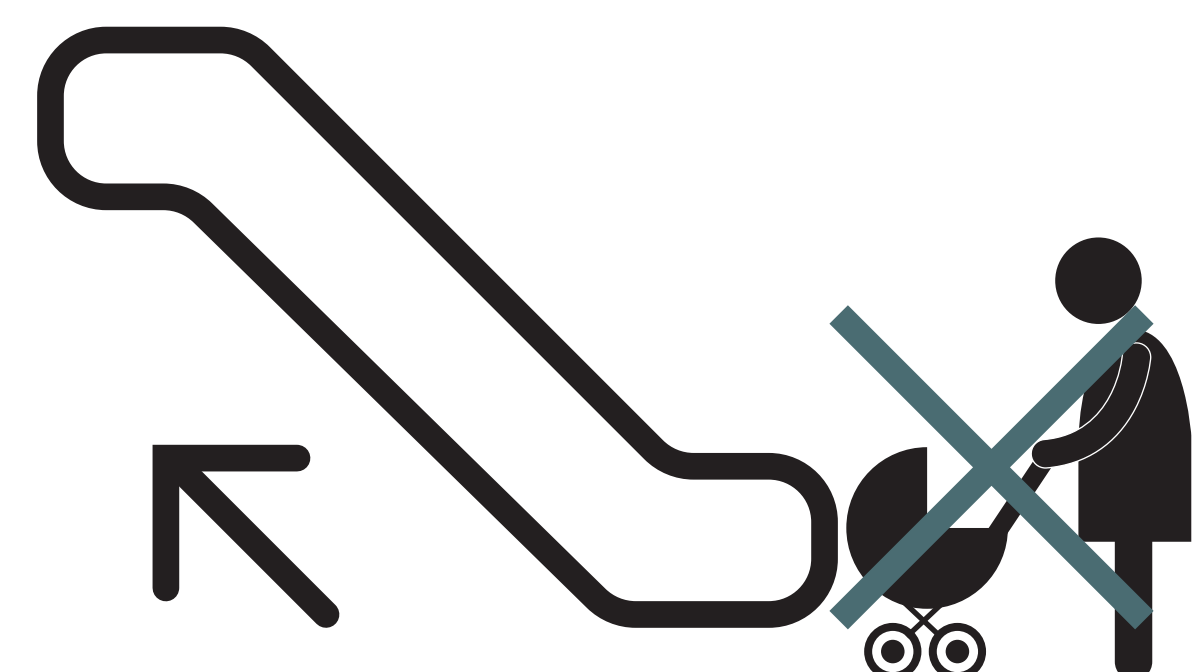

Do not play on the escalator. Children should be accompanied by an adult and should not be left alone near an escalator.

Do not transport large, long or heavy items on the escalator.

Physically challenged passengers, using canes, crutches, walkers, or wheelchairs should never use the escalator.

Never take a stroller or shopping cart on an escalator.
